

## Memorial in Rankin Inlet for the children in Kamloops

From Esther Powell, RN and CINA Board Member

June 2, 2021

Today at 2:15, there was a memorial for the 215 children in Kamloops.

This is for those children and for the survivors. And even though some survived...they were never the same.

I went for all of them, including my mom who is a survivor.

I brought my daughter's shoes and laid them down for those children who didn't make it back home to their families.

Residential schools stole a lot of beautiful souls, by killing them, killing their spirit.

We stand with our fellow indigenous people across the country.
